Introducing Our “Phygital” Approach – Strengthening Trust for the Future

With over 20 years of rich experience in the financial sector, we have always believed in evolving with time. Observing the rapid growth of digital adoption in Finance industry, especially among the new generation, we recognize that the future lies in technology.

However, based on our deep industry insights, we also understand that finance is a field where physical interaction still plays a crucial role – especially when it comes to building trust, handling important documentation, and offering personalized support.

This is why we are proud to introduce ourselves as a **“Phygital”** organization – combining the strengths of **physical presence** with the **efficiency of digital processes**.

We haven’t gone fully digital by choice:

- **Physical touchpoints** continue to strengthen customer confidence and relationships.
- **Digital support** ensures faster, smoother processes, without compromising trust or service quality.

This powerful Phygital approach is designed to offer the best of both worlds – enabling us to serve our modern customers, developers, and channel partners more effectively, delivering greater benefits across the board. Additionally, we are excited to announce our active participation in the real estate sector, further expanding the value we bring to our customers.

At the core of this transformation is our commitment:

To build stronger, lasting, and more satisfying relationships with every client we serve.

Welcome to a future where trust meets technology – welcome to our Phygital world!

REAL ESTATE DEVELOPER PARTNERSHIP PROGRAM

At **Sai Fakira Group**, we don't just fund projects – we fuel visions. With deep-rooted expertise, our **Special Real Estate Programme** is designed exclusively for developers seeking reliable, efficient, and smart capital solutions.

Key Developer Solutions We Offer:

★ **Project Loans**

Looking to fund a new residential or commercial development project, or complete an under-construction site?

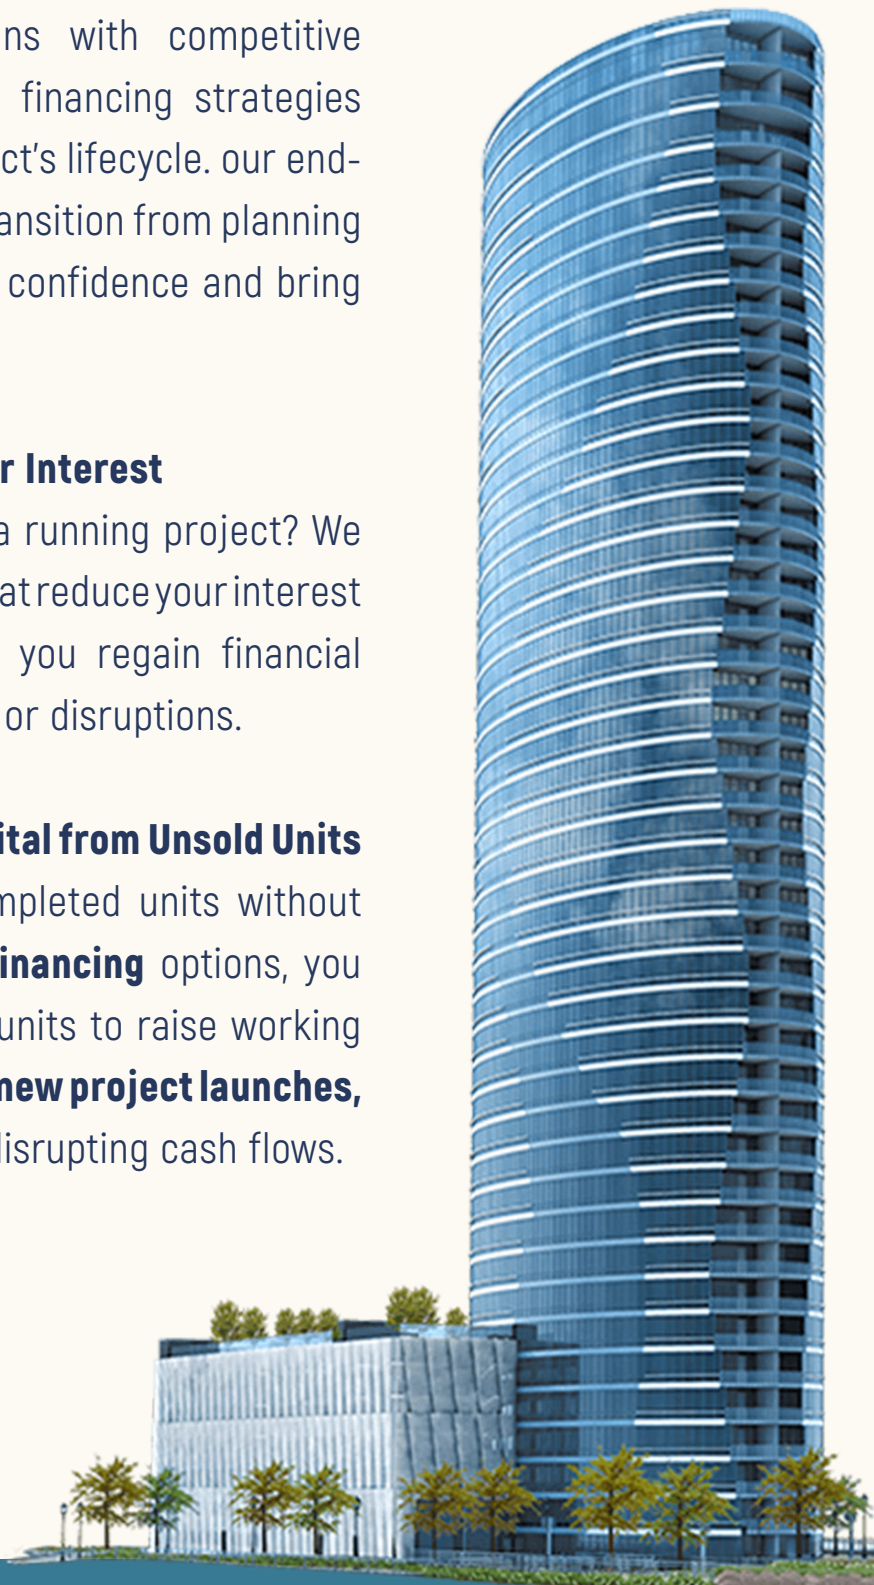

We offer high-ticket project loans with competitive interest rates and comprehensive financing strategies tailored to every stage of your project's lifecycle. Our end-to-end solutions ensure a smooth transition from planning to possession. Secure funding with confidence and bring your project to life seamlessly.

★ **Project Loan Takeovers – Lower Interest**

Stuck with a high-interest loan on a running project? We assist with **project loan takeovers** that reduce your interest rate, improve cash flow, and help you regain financial momentum—without project delays or disruptions.

★ **Inventory Funding – Unlock Capital from Unsold Units**

Monetize your ready or nearly completed units without selling them. With our **Inventory Financing** options, you can mortgage 80–100% completed units to raise working capital. Ideal for **land acquisition or new project launches**, this option allows liquidity without disrupting cash flows.
